LANOSPHERICAL MACHINE for CRUSHING, GRINDING and PULVERIZING.

Recently Patented in this Country and in Europe.

COCHRAP'S PLANOSPHERICAL QUARTZ-CRUSHING and PULVERIZING MACHINES, of various sizes, from 7 to 10 feet in diameter, and weighing from 500 lbs to 10 turs each, are now in daily operation for the inspection of the public, and will be submitted to any reasonable practical feets proposed by parties interested.

These machines, by their sim plicity of construction, their dirability, the undoubtrd principles upon which they operate, their effective operation and result, are justly entitled to the consideration of all parties engaged in grinding, crushing and pulverzing Quartz, Zinc Ore, and all other ores, or an ineral substances.

ing and pulverizing Quartz, Zinc Ore, and all other ores, or more al substances.

It is the peculiar feature of the economy of these machines that they are found capable of crushing and pulverizing into the first powder any amount of Quartz or other earthy matter, in proportion to the amount of weight or power applied. The earthy matter is so completely ground and pulverized, that the gold may be easily separated, and subjected to any process of amalgamation that may be necessary. The machines work and deliver wet or dry, as may be required, and run with little friction (being almost without machinesy,) requiring no lubricating: the principle upon which they operate precludes the possibility of their being put out of order; nor do they heat any material while being pulverized. They are at once applicable for all purposes of gineing and pulverizing, from those required by the Druggist these of the most extensive operations in California and Australia.

the three of the most extensive operations in Canada, and Australia. The proprietors of this invention solicit examination, and will prove by practical tests the vast superiority and economy of these machines over any other, for crushing, grinding, or sulverizing, heretofore offered to the public.

These machines may be seen in operation at foot of South Eighth-st., Williamsburgh; at the large Patient Block and Saw Factory of Messus Burr, Waterman & Co., first street mouth of Peck slip Ferry, every day, from 7 to 9 A. M., and from 4 to 6 P. M. For further particulars apply to E. & J. BUSSING & CO., No 32 Chiff-st., N. Y.

500 TUNS of WIRE WANTED .-TUNS of WIRE WANTED.—
Proposals are invited by the undersigned. on the part of the NIAGARA FALLS INTERNATIONAL ERIDGE COMPANIES, for the construction of the wire cables of the Railroad Suspension Bridge, of 800 feet span, to be erected over the Niagara River, below the Falls, for the delivery of ONE MILLION OF POUNDS OF IRON WIRE, or any portion of it, not less than 100,000 lbs, at the site of the bridge, on the following conditions:

1. The wire is to be of No. 10 size, so that 20 feet will weigh exactly one pound.

2. The skeins to weigh no less than 13 lbs. An offer for 50 to 40 lbs will be greatly preferred.

3. The wire must be finished with a lime cost, smooth and even, both ends of the same thickness.

4. It must be finished in three holes, or nearly as hard as spring wire.

5. The iron must have been manufactured of the best quality of charcoal blooms, which will make hard wire of great elasticity, strength, fibre and toughness.

6. The blooms must have been manufactured of cold-blast charcoal pig, and not of anthracite pig, nor of hot-blast pig.

7. Satisfactory evidence will be required beforehand of the quality of the iron, of which the wire is to be drawn.

8. The wire must be drawn on blocks of no less than two feet in diameter.

9. It must be put up in bundles of 200 lbs., as near as can be done, without small skelns.

10. The wire is to be divered in five equal portions during the months of May, June, July, August, and September of next year.

11. On delivery the wire will be examined and tested in the following manner: Of every 5 bundles, or 1,000 lbs., one skein will be selected, and suspended between two posts.

with be rejected and placed at the contracts a disposar, it her broken or whole, olied or not ciled, in such condition as they happen to be during the progress of the work. The value of such wire, together with the labor expended upon it, will then be deducted of the 20 per cent. reserved.

15. The undersigned, as the Engineer of the Bridge, will be the sole judge of the above tests; he will stand as an impartial umptre between the con-ractor and the Bridge Companies at a from his decision there shall be no appeal.

16. Proposals for imported wire will also be accepted. One-half or Seof.09 the will be used on the Canada side, and may be conded, if imported by way of New-York.

17. Proposals will be received until the lat of October next; they are to be directed to the undersigned, at Niagara Falls, N. Y., and should be marked on the cavelope "Proposals for Bridge Wire."

18. Those contractors, whise processls are accepted, will be informed of the fact by mall before or on the 1eth of October next.

OTICE.—The undersigned has com-menced business as Broker, in Notes, Stocks, Rail-road Bonds, Exchanges, &c., at 6 Jauncey-court, 39 Wall-st. THOS. LORD,

DROPOSALS for LOAN.—\$225.000

point 20 miles east of Hillsborough. They are issued to meet the expense incurred in the construction of 37 miles of read, from Loveland (the point of connection with the Little Mismi Railroad), east to Hillsborough, 35 miles of which are completed as a first-class Railroad, with T rail, 50 lb to the yard, and has been running since lat May last a daily train of passerger and firsight cars, and has up to this time netted clear 6 per cent on the entire cast of the road.

This 37 miles of road from Loveland to Hillsborough passes through portions of the Counties of Clermont, Warren, Clinton and Highland—the latter of which slone, by the Assessor's returns for 1852, has of Cattle 15,931 head; of Hogs, 43,559 head; of Sheep, 25,449 head; of Whast, 495,389 bushels, end Gorn, 1,93,020 bushels; and of other products in the same ratio, showing a probability that as a local road it may pay from ten to twelve per cent, on the cost of construction. But it is the fixed policy of the Company to extend their road east of Hillsborough to Balpra, opposite Parkersburgh where it will form a connection with the Great Fallroad line from Beltimore to the class of Ciernatia and St. Louis, of which this road is a connecting link. The Trustee in the mortage is JAS. F. D. LANIER, Esq., of the City of New-York. The bonds draw interest from the first day of July past. Thirty per cent. will be required on being notified of acceptance of bid, and the balace during the months of September and October. Exhibits giving full particulars in relation to these securities, as well as the report of Col. Elwood Morris, Civil Engineer, and B. H. Latrobe, Esq., Consulting Engineer, on the entire interform Hillsborough to Parkersburgh may be seen it the banking house of DELANO, DUNLEVY & CO., No. 18 United the Misser of the City of the City

Wall-st., New-York.

President H. & C. R. Co.

PENNSYL VANIA RAILROAD

LOAN-3.00,000 DOLLARS.—Sealed proposals will be received at the office of the Company, in Philadelphia, until the 15th day of September next, at sunset, for the whole or any portion of the above named Loan.

The Loan will be secured by a first mortgage on the Railroad of the Company—38 miles in length—and its equipment, which, when placed in complete operation between Harrisburgh and Pittsburgh, with single track and sidings, will east \$12.560,000.

The amount of unconditional subscriptions to the capital stock of the Company on the 5tst May, was \$3,700,000, which will shortly be increased to Ten Millions. On these subscriptions there was paid at that date \$1.417,893.

This broad basis, together with the large receipts of the Company from the business of the road in its unfinished condition, demonstrating beyond a doubt, the ability of the Company to pay not only interest on its debt, but ample dividends to stockholders,) enables the Directors to offer this loan to capitalists, with an unqualified assurance that it will afford as asie an investment of their funds, and as certain in the punctuality with which the interest will be met, as the best government securities.

The Bonds will be issued in sums of One Thousand Dollars, with interest coupons, at the rate of six per cent attached, payable on the first days of January and July, of each year, at the office of the Company, in this city, or in sums of £200 sterling, with interest coupons, at the rate of six per cent attached, payable on the first days of January and July, of each year, at the office of the Company, to the capital stock of the Company, at par, at any time previous to the Slst December, 1880.

Twenty-five per cent, of each accepted bid to be paid within twenty days after the receipt of notice of its acceptance at London, if for Sterling Bonds, and Philadelphia, if for Dollar Bonds; the remainder to be paid in installment every 90 days thereafter, until the whole amount is set

company, or to EDWARD MILLER, Coler Engineer, in special Agent of the Company in London. J EDGAR THOMPSON, President. Philadelphia, July 13, 1852.

SIMEON DRAPER offers for Sale, in

It owes a funded debt, bearing 7 per cent. interest, of. 100,000
Its entire cost is. 499,500
The Road is now in full running condition and furnished with all necessary equipment. It has been lessed to the Rutland and Washington Railroad Co. for 47 years at a rent of \$7,000 for the current year, and of \$16,000 per anaum, after ist January next, over and above all taxes and assessment, and the lense entitles this Road to a rateable proportion of one-half of the net earnings of both Roads over and above 4 per cent per annum, and of the Albany and Northern Road, with which both the Troy and Rutland, and Rutland and Washington are to be connected by the terms of the Its lesses.

and Washington are to be council a certain moderate in-lease.

This lease secures beyond question a certain moderate in-come to the stockholders, and the prospective increase of this income, which will inevitably arise out of the growing traffic over this main North and South route, cannot fail to make the stock of the Troy and Rutland Rainroad a very de-sirable investment. The receipts of the Company, working both lines, bave, since the full opening of the line, been most flattering.

TO RAILROAD CONTRACTORS.—
CHICAGO and MISSISSIPPI RAILROAD.—Sealed proposals will be received at the office of the Company is the city of Springfield, Illinois, until SATURDAY. August 14, for the GRADING, MASONRY, BRIDGING and CROSS TIES of that division of this Road which extends from Springfield to Bicomington, Illinois.

The distance is about sixty miles, and the route traverses the most elevated and healthy portion of the State.

The line is divided into sections of about two miles each, and the work is to be commenced without delay.
Payments for work and materials will be made in Cash.
Profiles and plans may be seen and blank forms obtained at the offices of the Company in Springfield and Bloomington, Illinois, where any information will be furnished by the Engineer Department
Satisfactory proof of responsibility will be required from those proposing for the work.
The subscriber will be in New-York, at No. 68 Warren-st. up stairs, over Hudson River Railroad Office, until August 35, and will be prepared to exhibit profiles, plans, &c., and give information to such as prefer to offer proposals in this city.—New-York, July 15, 1852.

DUBLIC SALE of ONE HALF of BURLINGTON or MATINICUNK ISLAND.—In pursuance of an act of the Legislature of the State of New Jersey, and by the authority of a legal Town Meeting of the citizens of Burlington City, will be sold at public sale, at 12 o'clock, M., on Monday, the 6th day of September next, at Belden's City Hotel, in the city of Burlington, N. J., one-half or the lower part of Burlington or Martinicunk Island, comprising about 15° acres. This valuable property is situated in the Delaware River, opposite the city of Burlington, N. J., 20 miles above the city of Philadelphia, and upon the great highway between the two great commercial cities of the Union, and immediately opposite the cutter of the Delaware Division of the Pennsylvania Canals, at Bristol, through which passes the great bulk of coal which is shipped from Philadelphia.

The eligible situation of this Island, the depth of water, and the boldness of the shores, combine to render it one of the most desirable properties which have been offered to capitalists or manufacturers for a long time.

The purchaser will be required to give satisfactory security for the performance of the contract.

TO DENTISTS .- As there are those

who suppose that isolated experiments having been made by different persons, at different times, to accomplish a certain object, although not carried out practically, and brought into public use, will nevertheless bar a patentse who has, from sustaining damages for infringements.

In order, therefore, to correct this faise impression we would refer to the law upon this subject, which reads thus:

By the Act of 1856, section 6, patents were ranted for any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement os any art, machine, manufacture or composition of the state of the section of the subject of the section of the subject of the section of the subject of the subject

which may have been tried by them but not reached prical.

In view of the above considerations, together with the efforts which have been made to wrest from me my invention for mounting artificial teeth upon me alle plates with continuous gums, I forwarn all persons from welficking, or in any way infringing upon my right as patentee for the same, as I shall mest positively protect my patent.

Dr Allen's Laboratory Rooms are on Murray-st. next door to Butta's Hotel, where he is constantly engaged in giving practical instructions in this style of work. He respectfully lavites his professional brethren to call and see specimens, witness demonstrations, &c., &c.
